PROFILE

Full Stack Developer with 2.5+ years of experience building scalable web applications using the MERN stack. Proficient in developing reusable component architectures, managing complex state efficiently, and optimizing performance (95+), SEO (99), and best practices (100). Skilled in real-time systems, API integrations, and deploying secure cloud solutions on AWS across e-commerce, social, and entertainment platforms.

EXPERIENCE

Full Stack Developer

Aug 2025 – Present

QuantumCrafters Studio Pvt. Ltd.

ElevatrX (Live Platform)

- Engineered a social media automation platform (ElevatrX) integrating Meta/Instagram APIs for real-time analytics and multi-platform publishing.
- Implemented OAuth-based secure authentication and account linking to ensure user data security.
- Developed AI-assisted post creation features to streamline content generation workflows.
- Built a scalable backend using **Node.js, MongoDB, and Redis** caching to handle high-volume data processing.
- Created Axios instances with request and response interceptors for centralized API handling and error management.
- Deployed applications on **AWS** utilizing S3 buckets for storage and Firebase Cloud Messaging (FCM) for push notifications.

MERN Stack Developer

Feb 2024 – May 2025

CQLSYS Technologies Pvt. Ltd.

Palmetto Pickleball (Live)

- Developed a real-time multiplayer sports platform with team challenges and interactive chat systems.
- Implemented push notifications and cron-based automation to enhance user engagement and platform functionality.
- Built reusable React components and established robust state management using **Redux Toolkit** for consistent UI performance.
- Created Axios instances with interceptors to streamline API communication and error handling.
- Deployed the application on AWS, leveraging S3 buckets for asset storage and FCM for notifications.

MERN Stack Developer

May 2023 – Feb 2024

Baseline IT Development

HostTravel.org (Live)

- Built a travel booking platform with dynamic listings and Server-Side Rendering (SSR) optimization using **Next.js**.
- Implemented caching strategies and REST APIs with Node.js and MongoDB to improve page load times and data retrieval.
- Integrated **AWS S3** for image storage and Firebase Cloud Messaging (FCM) for notifications.

NOTABLE ACHIEVEMENTS

- Developed and deployed a social media automation platform connecting with Meta/Instagram APIs, handling OAuth authentication and AI-assisted content creation.
- Built a real-time multiplayer platform for Palmetto Pickleball, implementing chat systems, push notifications, and cron-based automation.

SKILLS

Frontend: HTML, CSS, JS, React.js, Next.js, Redux Toolkit, TypeScript, Tailwind CSS, MUI

Backend: Node.js, Express.js, Socket.IO, RESTful APIs, Redis, MongoDB, MySQL

DevOps/Tools: AWS (S3, CloudFront, EC2), Git/GitHub, Firebase, Postman

EDUCATION

Diploma in Computer Science

2019 – 2022

Delhi Institute of Management & Engineering Studies

12th & 10th (U.P. Board)

2017 – 2019

JSI College, Kushinagar

Languages: Hindi, English (Proficient)
